

Did you use an existing Open Energy System Model or Framework (e.g. application or further development)?

Poll taken at the Open Energy Modelling Initiative workshop on 17 January 2020 in Berlin, Germany

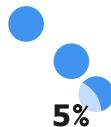

Yes!

0%

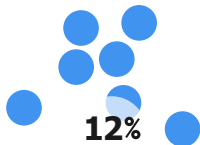

No, I only trust
my own coding

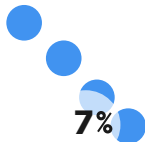

No, coding
myself is faster

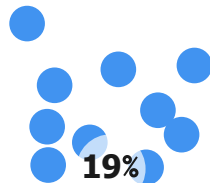

No, I didn't know (when I started)
that there was already a useful
model/framework

No, there was no existing
tool for my dedicated
research question

No, I want to make
novel academic work

No, for other
reasons

 **58**
